## Weekly Online Safety Tips

You may have seen news over the last few days about an image or "challenge" being used on messaging apps, which is being used to scare children and young people and to steal personal information. The image, known as MOMO, is being used to add people on messaging services, with some reports of threats against young people or their families.

This is in no way connected to the Mind Of My Own (MOMO) app used by young people to tell us about services, add to their reviews and make complaints. That app is tried and tested and is safe for children and young people. In the future the app will be branded as Mind Of My Own, without the shortened version of the name.

The current news is a reminder of the importance of supporting children and young people to stay safe online. There is a range of information on the Just One Norfolk site

Remember, if you have concerns about online behaviour, it can be reported at <http://www.ceop.police.uk/>
